## Dictionary Definitions Replace Nouns

all the season between spring and autumn, in the Northern Hemisphere from the summer solstice to the autumnal equinox, and in the Southern Hemisphere from the winter solstice to the vernal equinox I saw you lying in and become saturated or permeated with water or some other liquid through and to displace part of the volume of a supporting substance or object and become totally or partially submerged or enveloped fall or descend into or below the surface or to the bottom and the to break without complete separation of parts become fissured and a loud, sharp, shrill cry as you lost the hard connective tissue forming the substance of the skeleton of most vertebrates, composed of a collagen-rich organic matrix impregnated with calcium, phosphate, and other minerals.
